Vinyl playfully runs into the fog, leaving Benzene all alone.

Benzene: I can-not see through this fog!

Vinyl: Well, I can still see through you!

Violin

Benzene: Free-spirited lovers can be the worst!

Vinyl: Speak for yourself. Do not worry because you smell like gas! It's impossible to lose you!

Benzene: Really, PVC fart? Because you lost me here.

Vinyl: No way. We've been together for a moment. But we do need time on our own to see clearly again.

Benzene: I cannot even see myself...

Vinyl: We'll cross this bridge when we get to it.

Benzene: I am small. I am too small. Too small for light that I cannot see it. I lack the complexity of sight. I am small. I am so small. So small I am always an oversight. I am tiny to this world. I am very small. There is atomic will. Free will in these condensed matters. The fog is nothing.

2

The fog is nothing. I can see through this fog, beyond the murky molecules. I am Benzene. I can feel clearly the cues. Vinyl's cues. I want to adopt gay frogs with you! As many gay frogs as we want! We didn't just fall in the river, we fell in love.
